

TEACHER INSTRUCTIONS

THE VOTE

In this assignment, before the students start working, you need to vote on the movies and make a tally table on the board.
Below is a completed sample tally table:

					
Watched it					
Liked it a lot					

You can use the table on the following page if you have a projector. If you do not have a projector, you need to draw it on the board beforehand.

Then for each movie

- Ask how many of them watched it and put a tally mark for each student.
- Ask how many of them liked it a lot and put a tally mark for each student.

They will use results in the tally table to make the frequency table in their assignment.
